In a community-wide effort to reduce substance use, Tempe Coalition and ASU's C3 program are facilitating this training to help addiction and prevention professionals hone their Motivational Interviewing (MI) skills.

The MI skillset focuses on a person-centered counseling style with the goal of strengthening a person's motivation and commitment to change in an atmosphere of acceptance and compassion.

Presented by **Dr. Thomas A. Workman**, training topics covered will be related to MI and the SBIRT model (*screening, brief Intervention, referral to treatment*) being implemented at ASU.

Participants will:

- Gain better understanding of MI & SBIRT
- Engage in dialogue and practice MI skills
- Receive training and coaching materials
- Receive a certificate of completion—inquire about CEUs
